Eligibility	Only if you are eager to learn — no excuses, no shortcuts.
Certification	IDM Certificate of Completion + Internship Certificate + guided support to earn 30+ free industry certifications from Google, HubSpot, Meta, Semrush, HP LIFE & more

READ THIS BEFORE YOU ENQUIRE

If you're only looking for a certificate to put on your resume, this programme is not for you.

This is 120 hours of live, hands-on work followed by a real 2-month internship — with attendance requirements, graded assignments, a capstone review panel, and mentor sign-off. There is no shortcut through it and no certificate without doing the work. It's built for people who actually want to become employable AI-marketers — not people who want a PDF to screenshot. If that's not what you're looking for, there are easier, shorter courses out there. If it is, this is the most complete programme you will find in India.

What Students Will Be Able To Do

- Plan and execute an AI-integrated digital marketing strategy from scratch.
- Use Generative AI tools daily for content, ad copy, SEO and personalisation.
- Run and optimise live Google Ads, Meta Ads and organic social campaigns.
- Build no-code marketing automations and a working AI marketing agent.
- Set up GA4, dashboards and attribution to report on real marketing ROI.

- Design a basic Martech/CRM stack and a lifecycle marketing programme.
- Present a complete, portfolio-ready capstone campaign to a hiring panel.

Why This Programme Is Different

Digital marketing education in India hasn't kept pace with the industry. Most institutes are still teaching a 2019 syllabus — Facebook Ads, basic SEO, a bit of Canva — while agencies and brands have already moved to AI-first, automation-driven marketing teams. IDM built this programme from the ground up to close that gap, not patch it.

Typical Digital Marketing Course	IDM Advanced Programme
Teaches Google & Meta Ads as the finish line	Ads are one module out of twelve. AI, automation & Martech are the core
1–2 AI tools mentioned in passing	50+ AI tools, hands-on, including agent-building with n8n & Zapier
No exposure to Martech, CRM or CDP concepts	Full Martech stack module: CRM, automation, data & lifecycle marketing
Certificate after watching recorded videos	Certificate only after a live capstone + real internship deliverables
Internship = optional / unpaid task list	Structured 2-month internship on live brand accounts with mentor sign-off
Generic, one-size-fits-all projects	Applied exercises on real/simulated brands every single week
Same static syllabus reused for years	Tool list and modules refreshed every batch to match the current industry stack
5–6 tools taught, mostly surface-level	100+ tools, certified hands-on practice not just a demo click-through
"AI training" = how to type a ChatGPT prompt	Full AI curriculum: prompt engineering, GenAI, Agentic AI, workflow automation
No resume, LinkedIn or interview support	Dedicated capstone + resume, LinkedIn profile & mock interview prep built in
One vague "Digital Marketing" certificate	IDM Certificate + Internship Certificate + 30+ verifiable third-party certifications
Only theoretical case studies, no live brands	Real client/brand accounts during the internship, not simulations alone
Placement help = a job link forwarded on WhatsApp	Structured career support: resume, LinkedIn, interview prep & internship-to-opportunity pipeline
No automation or no-code training at all	Dedicated module on AI agents & automation using Zapier, Make and n8n
Batches of 100+ with no individual feedback	Small-batch with 20 students mentoring with graded assignments and weekly doubt-clearing
Course ends in 4–6 weeks, no real depth	Full 4-month journey: 60-day practical bootcamp + 2-month live internship
"Run ads" taught with no focus on ROI or measurement	Dedicated analytics module: GA4, attribution, dashboards & ROI reporting

The IDM Difference, In Numbers

Metric	IDM Advanced Programme
--------	------------------------

Metric	IDM Advanced Programme
Total Hands-On Hours	120 hours of live, practical training — not recorded playback
Tools Certified On	100+ tools across AI, Ads, SEO, CRM, Automation & Analytics
Live Campaigns Run	Multiple live/simulated campaigns per student across 12 modules
AI Agents Built	At least 1 working, deployed AI marketing agent per student
Real-World Exposure	2 full months of live internship — not a certificate mill

This isn't a course that teaches you to use Digital Marketing tools. It's a course that builds you into the AI-native marketer every modern brand is trying to hire and struggling to find.

Month 1 — Foundations, Content, SEO & Paid Media

Days 1–30 | 60 Hours | Modules 1–6

Days	Module & Key Topics	Tools Covered	Hrs
Day 1–5	Module 1: Digital Marketing & AI-First Foundations • Evolution of marketing: traditional → digital → AI-first • Digital ecosystem: SEO, SEM, Social, Content, Email, Martech • Marketing funnels (TOFU–MOFU–BOFU), RACE & AIDA frameworks • Consumer psychology, attention economy, platform behaviour (Google, Meta, YouTube) • Setting up: business goals, ICP, personas, journey maps • Live exercise: build a persona & journey map for a real brand	ChatGPT, Claude, Miro, Canva	10
Day 6–10	Module 2: Generative AI for Marketing • Gen AI fundamentals & prompt engineering (zero/few-shot) • AI content creation: ad copy, blogs, captions, scripts • AI personalisation at scale; evaluating & editing AI output • Multi-modal content: text, image (Canva AI), short video • Live exercise: build a 2-week content calendar fully AI-drafted	ChatGPT, Claude, Gemini, Canva AI, Jasper	10
Day 11–15	Module 3: SEO & Generative Engine Optimisation (GEO) • SEO fundamentals & ranking systems; on-page/off-page/technical SEO • Keyword research & search-intent mapping with AI • Programmatic SEO using AI; content optimisation workflows • Generative Engine Optimisation — ranking in ChatGPT/Google AI Overviews • Live exercise: full SEO audit + AI-assisted content brief for a client site	Google Search Console, Ahrefs/Ubersuggest, SurferSEO, ChatGPT	10
Day 16–20	Module 4: Social Media Marketing & AI Content Engines • Platform algorithms: Instagram, LinkedIn, YouTube, Facebook • Content strategy, calendars, engagement & virality mechanics • AI-powered content generation & scheduling systems • Influencer collaboration, UGC & community building basics • Live exercise: run a 2-week organic social sprint for a live page	Meta Business Suite, Canva, Hootsuite/Buffer, ChatGPT	10
Day 21–25	Module 5: Performance Marketing — Google Ads & Meta Ads • Campaign structure, keyword & audience targeting • AI-generated ad copy & creatives; budget & bid strategy • Retargeting, lookalike audiences, performance tracking • Live exercise: launch and optimise a live/simulated ad campaign	Google Ads, Meta Ads Manager, AdCreative.ai	10
Day 26–30	Module 6: Programmatic Advertising & Marketing Analytics • DSP ecosystem, real-time bidding, dynamic creative optimisation • Cross-device targeting, brand safety & fraud prevention basics • GA4 setup, event tracking, dashboards & attribution models • Live exercise: build a GA4 + Looker Studio performance dashboard — MONTH 1 MILESTONE: Mini-project presentation —	Google Display & Video 360 (overview), GA4, Looker Studio, Hotjar	10

Month 2 — Automation, Martech, CRO & Capstone

Days 31–60 | 60 Hours | Modules 7–12

Days	Module & Key Topics	Tools Covered	Hrs
Day 31–35	Module 7: Email, WhatsApp & Lifecycle Marketing Automation - Lifecycle funnels (acquisition → retention); segmentation - Email campaign design, drip workflows, AI personalisation - WhatsApp/SMS marketing automation for Indian D2C & local business - Live exercise: build a 5-email automated nurture sequence	Mailchimp, HubSpot, WATI/AiSensy	10
Day 36–40	Module 8: Marketing Automation & AI Agents - AI agents vs. workflows; planning, memory & tool-use concepts - No-code automation: triggers, actions, multi-step workflows - Building a simple AI marketing agent (content, reporting, alerts) - Human-in-the-loop guardrails & risk/limitations - Live exercise: build & deploy a working no-code AI marketing agent	Zapier, Make, ChatGPT/Claude API basics	10
Day 41–45	Module 9: Martech Stack, CRM & Customer Data - Martech ecosystem overview: CRM, CDP, DMP concepts - First-party vs third-party data, privacy & consent (cookieless world) - CRM-based lifecycle automation & lead scoring - Vendor evaluation basics; designing a simple Martech stack - Live exercise: map a CRM-driven customer journey for a business	Salesforce/HubSpot CRM, Google Analytics	10
Day 46–50	Module 10: Conversion Rate Optimisation & Web/Landing Pages - Funnel analysis, A/B testing & experimentation frameworks - AI-powered heatmaps & user-behaviour insights - Landing page design, copywriting & no-code page building - Live exercise: design, launch & A/B test a landing page	Hotjar, VWO/Optimizely (overview), WordPress/Shopify, Canva	10
Day 51–55	Module 11: Influencer, Community Growth & E-commerce Marketing - Influencer identification, evaluation & campaign structuring - Community building, social listening & sentiment analysis - E-commerce/D2C marketing basics: marketplaces, product listing, retention - Live exercise: build a micro-influencer outreach & UGC plan	Upfluence/HypeAuditor (overview), Shopify	10
Day 56–60	Module 12: Capstone Project, Portfolio & Career Prep - Build one end-to-end AI-powered marketing campaign: strategy → content → ads → automation → analytics → final presentation - Resume, LinkedIn profile & portfolio building - Mock interviews & client-facing communication practice — MONTH 2 MILESTONE: Capstone presentation to panel —	All tools covered in the programme	10

The IDM Tool Arsenal — 100+ Tools, Not Just Theory

Most digital marketing courses teach 8–10 tools. At IDM, students get certified hands-on practice across 50+ AI tools and 50+ marketing & martech platforms — the same stack used by top agencies, D2C brands and growth teams today. This is what separates an IDM graduate from every other fresher in the market.

50+ AI Tools (Generative AI, Agents & Automation)

ChatGPT	Claude AI	Google Gemini
Perplexity AI	Microsoft Copilot	Grok AI
Jasper AI	Copy.ai	Writesonic
Rytr	Simplified AI	n8n
Zapier	Make (Integromat)	Relevance AI
LangChain (overview)	Flowise	AutoGPT / AgentGPT (overview)
CrewAI (overview)	Midjourney	DALL·E
Adobe Firefly	Leonardo AI	Ideogram
Stable Diffusion	Canva Magic Studio	Gamma AI (presentations)
Tome AI	Beautiful.ai	Runway ML
Pika Labs	Synthesia	HeyGen
InVideo AI	Pictory	Fliki
Opus Clip	CapCut AI	Descript
ElevenLabs (AI Voice)	Suno AI	Udio AI
Notion AI	Otter.ai	Fireflies.ai
SurferSEO AI	Frase.io	MarketMuse
Clearscope	Predis.ai	Ocoya
Lately AI	Vista Social AI	ManyChat AI
Botpress	Chatbase	Voiceflow
Tidio AI	Intercom Fin AI	Durable AI Website Builder
10Web AI	Wix ADI	Julius AI (Data Analysis)
Consensus AI		

50+ Marketing & Martech Tools (Ads, SEO, CRM, Analytics, Automation)

Google Ads	Meta Ads Manager	Meta Business Suite
Google Display & Video 360	Google Analytics 4	Google Search Console
Google Tag Manager	Looker Studio	Google Keyword Planner
Google Trends	Microsoft Clarity	Ahrefs
SEMrush	Ubersuggest	Moz

Screaming Frog	AnswerThePublic	BuzzSumo
Hotjar	VWO	Optimizely
Unbounce	Leadpages	Instapage
Mailchimp	HubSpot CRM & Marketing Hub	ActiveCampaign
Klaviyo	Brevo (Sendinblue)	ConvertKit
Zoho CRM	Salesforce	Pipedrive
Freshsales	WATI (WhatsApp)	AiSensy (WhatsApp)
Interakt (WhatsApp)	Hootsuite	Buffer
Sprout Social	Later	SocialPilot
Canva	Adobe Express	Figma (basics)
WordPress	Shopify	Wix
Webflow	Amplitude	Mixpanel
Supermetrics	Triple Whale	TapClicks
Upfluence	HypeAuditor	Modash
GRIN	AdCreative.ai	

Tool lists are reviewed and updated every batch so students always train on the current industry-standard stack — not tools that were relevant three years ago.

30+ Free Industry Certifications You Can Earn

Beyond the IDM Certificate of Completion and Internship Certificate, students are guided and mentored to complete 30+ globally recognised, 100% free certifications from the platforms every recruiter actually searches for on LinkedIn. Every one of these is issued directly by the platform itself, at zero cost — IDM's job is to make sure you actually earn them, not just enrol.

20+ Certifications & Badges from Google

Google Ads Search Certification	Google Ads Display Certification	Google Ads Video Certification
Google Ads Shopping Certification	Google Ads Apps Certification	Google Ads Measurement Certification
Google Ads Creative Certification	Google AI-Powered Performance Certification	Google Analytics (GA4) Certification
Digital Garage: Fundamentals of Digital Marketing	Digital Garage: Build Your Web Presence	Digital Garage: Grow Your Business Online
Digital Garage: Reach New Customers with Google Ads	Digital Garage: Understand Your Customers Better	Digital Garage: Increase Customer Loyalty
Digital Garage: Build Better Display Ads	Digital Garage: Turn Data Into Action	Google Workspace Badge: Collaborator
Google Workspace Badge: Organizer	Google Workspace Badge: Automator	

10+ More Industry Certifications

Platform	Certification
HubSpot Academy	Inbound Marketing Certification
HubSpot Academy	Content Marketing Certification
HubSpot Academy	Email Marketing Certification
HubSpot Academy	SEO Certification
HP LIFE	Digital Marketing Certificate of Completion
HP LIFE	Social Media Marketing Certificate of Completion
Semrush Academy	SEO Fundamentals Certification
Semrush Academy	PPC Fundamentals Certification
Meta Blueprint	Social Media Marketing Certificate
Hootsuite Academy	Social Media Marketing Certification

Result: an IDM graduate doesn't walk out with one certificate — they walk out with a LinkedIn profile carrying 30+ verifiable, third-party credentials from Google, HubSpot, Meta, Semrush, HP and more, on top of the IDM Certificate and Internship Certificate.

Weekly Rhythm (Sample Week)

Day	Structure
-----	-----------

Day	Structure
Day 1	Concept session (theory + live demo) — 2 hrs
Day 2	Guided hands-on lab on the same topic — 2 hrs
Day 3	Tool-specific practice + mini-task — 2 hrs
Day 4	Applied exercise on a real/simulated brand — 2 hrs
Day 5	Review, doubt-clearing, module mini-assessment — 2 hrs

Internship Phase — Month 3 & 4

The internship converts classroom skill into workplace-ready experience. Students work on live brand accounts (in-house IDM client accounts or partner businesses) under mentor supervision, with weekly deliverables and structured feedback.

Month 3 (Internship Weeks 1–4) — Applied Foundations

- Onboarding onto a live client / in-house brand account
- Own SEO + social content calendar for one real brand end-to-end
- Assist in live Google/Meta Ads campaign management under mentor review
- Weekly reporting using GA4 + Looker Studio dashboards

Month 4 (Internship Weeks 5–8) — Ownership & Specialisation

- Independently manage one channel (SEO, Paid Ads, Social, or Automation) for a live account
- Build and ship one automation/AI-agent workflow used in production
- Prepare a full campaign performance review & optimisation recommendations
- Final internship presentation + performance appraisal + placement support

Internship Deliverables

- Weekly performance report (channel-wise) reviewed by mentor
- One owned live campaign or automation shipped to production
- Final internship presentation to IDM faculty + client/brand stakeholder
- Internship completion letter + performance appraisal

Assessment & Certification

Component	Description	Weightage
Attendance & Participation	Minimum 80% attendance across live sessions	10%
Weekly Assignments & Quizzes	12 module-end assignments, graded	25%
Month 1 Mini-Project	Live/simulated ad + analytics dashboard	15%
Capstone Project (Month 2)	End-to-end AI marketing campaign + presentation	25%
Internship Performance	Mentor evaluation across Month 3–4	25%

Certificate of Completion is awarded on: minimum 80% attendance in the practical phase, successful capstone submission, and a satisfactory internship mentor sign-off.

Capstone Project Brief

In the final 5 days, each student (or pair) selects a real or simulated brand and builds a complete AI-powered marketing campaign covering:

- Strategy: goals, ICP, funnel & channel plan
- Content: AI-assisted content calendar + creatives
- Paid + Organic: one live/simulated ad set + organic content sprint
- Automation: one working workflow or AI agent
- Analytics: GA4 dashboard with KPIs and attribution
- Final presentation to an internal review panel
